### **DETAILED ACTION**

The Amendment filed June 19, 2003 has been received, entered into the record, and carefully considered. The following information provided in the amendment affects the instant application by:

Claims 11-16 have been amended.

Claims 17-27 have been cancelled.

Claims 28-42 have been added.

Remarks drawn to rejections of Office Action mailed December 17, 2002 include:

Claim objections: which have been overcome by applicant's amendments and have been withdrawn.

112 2<sup>nd</sup> paragraph rejections: which have been overcome by applicant's amendments and have been withdrawn.

103(a) rejection: which has been overcome by applicant's arguments and has been withdrawn.

An action on the merits of claims 11-16 and 28-42 is contained herein below. The text of those sections of Title 35, US Code which are not included in this action can be found in a prior Office action.

### Claim Objections

Claims 40-42 are objected to as the recitation "wherein said vacuum distillation is carried out a temperature of 50-60°C and a pressure of 750-800 mm of mercury" is cumbersome to read.

Art Unit: 1623

The claims would be more favorably considered if written as "wherein said vacuum distillation is carried out at a temperature of 50-60°C and at a pressure of 750-800 mm of mercury".

## Claim Rejections - 35 USC § 112

Claims 13-16 and 28-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 13-16 are indefinite as it is unclear how the limitations set forth in the claims further limit the claims from which they depend. Claim 13, for example, reads "the anthocyanic colorant according to claim 11, wherein its natural red color is retained when it is exposed to an acid environment having a pH from 2.0 to 7.0". Claim 11 is a composition claim, and claim 13 is drawn to properties associated with the composition. It is unclear how the properties of the composition can further limit the composition, or how a method acted upon the composition (subjecting to various pH's or freezing, boiling, etc. of claims 15 and 16) materially effects the composition as claimed, as the composition as set forth in claim 11 must inherently maintain its natural red color when exposed to the various environments, as the composition of claims 13-16 have no additional moieties included therein which serve the purpose of maintaining the coloring in the various environments. Clarity is respectfully requested.

Claims 13 and 14 are indefinite wherein the claims read "it is exposed to an acid environment having a pH from 2.0 to 7.0", as an environment having a pH of 7.0 is not an acidic environment. Claiming a pH of 7 as being acidic is contrary to the accepted understanding that a pH of 7 is neutral. Clarity is respectfully requested.

Art Unit: 1623

Claims 28-33 are indefinite as the recitation in a dependent claim of the source of an

Page 4

active agent to be used as a starting material for a composition, wherein the "source of the active

agent" does not result in a patentably distinguishable composition, renders the claim(s) in which

it occurs and which depend therefrom indefinite for failing to distinctly articulate how such a

recitation further limits the composition from which said dependent claim(s) applicant regards as

the invention. That is, it is unclear how said active agent's source impacts the composition from

which it depends. The composition of claim 11 comprises specific compounds, and it is unclear

how the limitation of "the composition being prepared from corn vegetable pulp" would produce

a materially different composition from a composition containing the identical compounds being

prepared from other sources. Clarity is respectfully requested.

Claim 34 recites the limitation "said extract ion solvent" in the 1st and 2nd line of page 5

of the amendment. There is insufficient antecedent basis for this limitation in the claim as there

has been no previous recitation of an "extract ion solvent". It appears that this may have been

intended by applicants to be "said extraction solvent", which would have proper antecedent

basis. Clarity is respectfully requested.

All claims which depend from an indefinite claim are also indefinite. Ex parte Cordova,

10 U.S.P.Q. 2d 1949, 1952 (P.T.O. Bd. App. 1989).

Claims 11 and 12 appear to be allowable.
